DECLARATION UNDER 37 CFR 1.131

Honorable Commissioner of Patents & Trademarks
PO Box 1450
Alexandria, VA 22313-1450

Sir:

City of San Jose
State of California,

I, Kee Sin Tan, declare that all statements made of my own knowledge are true, and that all statements made on information and belief are believed to be true:

1. I, along with Liew Chuang Chiu, Ron Cheng Chuan Pang, Yong Peng Sim and Edwin Dair, am an applicant of the above-identified patent application and an inventor of the subject matter described and claimed therein.
2. Prior to November 30, 2000, in Calabasas, California and Singapore we conceived the idea of a Push Button

BEST AVAILABLE COPY

Release for a Fiber Optic Module as described and claimed in the above-identified application.

3. The original design was a one-piece plastic molded actuator and kicker called the "Pisces Actuator(Long Tail)", as illustrated in Exhibit A and in the drawing dated September 18, 2000 (Exhibit B).

4. To improve robustness, a two-piece version of the push-button release was developed in Calabasas, California and Singapore, as illustrated in Exhibit C, with a plastic actuator (Exhibit D, dated October 9, 2000) and a metal kicker (Exhibit E, dated October 9, 2000)

5. Further improvements were made to the actuator to enhance its fit with the metal kicker, as illustrated in the drawing dated October 23, 2000 (Exhibit F).

6. A two-piece plastic molded version was then developed in Calabasas, California and Singapore, as illustrated in Exhibit G, including an actuator (Exhibit H, dated March 7, 2001) and a kicker (Exhibit I, dated March 7, 2001).

7. I acknowledge that willful false statements and the like are punishable by fine and/or imprisonment, and may jeopardize the validity of the application or any patent issuing therefrom.

Sworn at the city of San Jose in the
State of California, this eleventh day of
October, 2004

Kee Sin Tan
